**urban - rural connectivity  
and regional  
development**

**online conference**

**23rd November**

**2021**

**Sarajevo, BiH**

# introductory

## word

Dear colleagues,

The Association of Consulting Engineers of Bosnia and Herzegovina is organising the **3rd Conference on Urban Planning and Regional Development**. The 3rd Conference is dedicated to *urban - rural connectivity and regional development*. This is a globally important topic referenced in the UN – AGENDA 2030 and EU – TERRITORIAL AGENDA 2020.

The Conclusions and Recommendations of the 2nd Conference, organised by ACE BiH on 15 and 16 October 2020 on - line, states under item 17:

*“Managing and planning life in cities and villages, thereby considering road infrastructure, utilities, other public services and hallmarks of quality life in the 21st century, is proving to be a demanding task in urban life processes in general, especially given the high intensity of urbanisation and migration of population to urban centres. The need to have precise long - term data on such processes, as well as real - time data enabling prompt reaction, are pushing the ICT sector into researching and developing sensor networks and data collection and processing systems, optimising resource utilisation including generation of sustainable development models with the highest level of ecological awareness. Two-fold action is required – raising quality of life outside urban centres and sustaining rural communities, with the aim of maintaining primary agricultural production and preventing over-population of cities. The EU cohesion policy for balanced development of regions and countries, but also levelling urban and rural development and raising overall quality of life, are excellent directions for further consideration and translation of these directives to local and state sector policies, strategies, action plans and project.”*

Same as before, the Conference is going to gather experts and scientists from various EU regions, representatives of NGOs and governmental institutions, so as to widen knowledge and experience in strategic planning of urban - rural areas and regional development.

The Conference is going to be held in Sarajevo, on November 23rd 2021.

We are looking forward to your active participation in the organisation and work of the 3rd Conference on Urban Planning and Regional Development.

Sincerely yours,

Dr. Ešref Gačanin  
President of ACE BH
