

13<sup>th</sup>

**B&H CONGRESS  
ON TRANSPORT  
INFRASTRUCTURE  
AND TRANSPORT**

→ **roads**  
first call

Sarajevo / Hotel Holiday / September 19- 20<sup>th</sup>

2024

Dear colleagues,

The Association of Consulting Engineers of Bosnia and Herzegovina (UKI BiH), in collaboration with the European Union Road Federation (ERF), is organizing The **13<sup>th</sup> Congress on Transport and Transport Infrastructure – Roads**, to be held in Sarajevo on 19<sup>th</sup> and 20<sup>th</sup> September 2024.

The Congress is of international character.

The level of a country's development is measured by the level of development of its transport infrastructure. The transport system is a very important developmental component of any society. The transport sector also plays a decisive role in the fight against climate change. Transport and traffic represent the most important potential for faster overall development (local, regional, and global development). There are continuous efforts to improve its developmental strategy, whose goal is a smart, safe, competitive, available, and environmentally acceptable transport system.

Roads are a cornerstone of European integration and overall development of European regions.

The same as the previous one, this Congress will gather experts and scientific workers from different regions of the EU, representatives of nongovernmental organizations, and government officials.

The following topics will be discussed at the Congress:

- **Green road transport**
- **TEN-T network**
- **Smart transport in urban areas**
- **Studies and projects**
- **A safer road network**

We expect your active participation in the organization and work of The 13th Congress on Transport and Transport Infrastructure – Roads.

Best regards,

Ešref Gačanin, PhD  
President of ACE BH
